Dear Adalberto:

Your application to a degree program in the Evening Division of Stonehill College has been approved. We wish to take this opportunity to welcome you to our Stonehill family.

The enclosed program provides an outline of the courses required to complete a Bachelor of Arts/Science in your chosen major. If you are a transfer student from another college, we have included a Transfer Evaluation form which indicates the courses that have been accepted in transfer.

Prior to registration each semester you are required to consult with an Academic Advisor concerning the selection of courses for that semester. This process will ensure proper sequencing of courses, and allows for individual attention to the problems and concerns of each student.

As an asset in this advising process, you will be asked to take basic skills tests in Math and English prior to or during your first semester in the degree program. The dates on which the tests will be administered during the coming semester will be announced through the mail, and you may sign-up to take them at the time most convenient for you.

Finally, we would ask you to read our current Evening Division catalog with great care. Except under highly unusual circumstances when there is truly compelling reason to make exception to established policy, adherence to the policies outlined in the catalog is mandatory. Please be sure to read it.

If you have any questions regarding your program, please call the Evening Division office at 238-1081, (Ext. 377 or 378).

Again, welcome and congratulations.

Sincerely,

George Rogers
Assistant Academic Dean
for Continuing Education

Dear Adalberto:

Recently you submitted a writing sample. The writing sample assists in placing in appropriate writing courses those students who may need assistance.

Your writing sample was read and scored by two professors, who are members of the Writing Program at Stonehill College. You received a score of 3. The legend interpreting the scores follows:

score of 1 definitely requires Basic Writing Skills

score of 2 definitely needs a writing course, either Basic Writing or College Composition I

score of 3 strongly recommend College Composition

score of 4 indicates well-developed writing skills - no need for specialized course.

It seemed best to notify you of your score. This will give you time to consider registering for a writing course in the Spring Semester if this will be helpful.

You may wish to discuss this with me or your advisor at the next advisement meeting. If you have questions or need clarification, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Miriam Sharpe".
